

## What our customers say...

*"Working with Bluepepper is a real pleasure. They are kind, honest, reliable and super efficient, they never need to be chased because they are completely organised too. I fully recommend them for all print, proofing and design."*

Sally Dorling, Marketing Foods

*"Thank you so much for producing the order of service sheets, which looked really lovely. We were all so pleased. Thank you also for the kind and sympathetic way you carried out the work."*

S. Cato

*"Thanks for all of the help with my design and printing requirements. I am extremely pleased with the results and have now had very positive feedback from clients. I was also impressed with how the team at Bluepepper adapted my initial ideas and look forward to both recommending your services and also doing continued business."*

Alan Butler, Blakes Financial Management

*"The team at Bluepepper are excellent and have supported the NTDA as a trusted service supplier for many years by designing and producing all of our marketing collateral. Nothing is too much trouble and both the level of service and materials produced are outstanding. I highly recommend Bluepepper."*

Stefan Hay, Chief Executive, NTDA

*"Fantastic customer service, prompt delivery and experts in the industry. I can always rely on the fab team at Bluepepper Designs."*

## About us...

**Bluepepper Designs** was founded by Lorraine and Mark in 2001. We are an independent design and print company, based in Aylesbury town centre, and cater for individual customers, as well as large and small businesses.

We specialise in designing and printing business stationery, advertising leaflets and brochures, as well as personal items such as invitations and order of service sheets.

For new businesses, or those just looking for a change of image, we also offer a range of logo design and branding services to suit any budget.

We pride ourselves on our customer service. Every job is important to us whether it is a large run of brochures or a small run of business cards. **We think the fact that more than half of our work comes from recommendations speaks for itself.**
